

AIMS AND SCOPE

Turkish Thoracic Journal is the conceptually scientific and official publication of the Turkish Thoracic Society. The publication language is both Turkish and English and it is an international journal based on independent, unbiased, and double-blind peer-review principles.

Turkish Thoracic Journal started its publication life following the mergence of two seperate journals which are published under the titles "Turkish Respiratory Journal" and "Toraks Journal" until 2007. Archives of both journals were passed on to the Turkish Thoracic Journal.

The aim of Turkish Thoracic Journal is to publish pulmonary disease-related clinical, experimental and epidemiologic studies that are scientifically highly qualified. Additionally, reviews, editorials, letters to the editor, and case reports are also accepted. Reports presented in meetings organized by the Turkish Thoracic Society Head Office or national and international consensus reports are published as supplements. The journal is published 4 times annually, in January, April, July and October. The target-groups are chest diseases physicians, thoracic surgeons, internal medicine doctors and practitioners interested in pulmonary diseases.

Turkish Thoracic Journal is indexed in EMBASE, Scopus, EBSCO, CINAHL, Gale/Cengage Learning, ProQuest, Index Copernicus, DOAJ and Tübitak/Ulakbim Turkish Medical Database.

Subscription Procedures, Permissions, Advertisement

Turkish Thoracic Journal is distributed free of charge to chest diseases specialists, academicians and assistants who are working in our country. Abstracts and full texts of the articles published in this journal are issued online at www.toraks.dergisi.org. Applications related to subscriptions, print permissions and advertisements should refer to the Turkish Thoracic Society.
